Controls Single or Dual Stage Geothermal Heatpump Systems with strip heat
Up to 3-heat & 2-cool

- Dual Setpoint
- Large, Easy To Read Display
- Thermoglow™ Backlight
- Auto-Changeover
- No batteries required
- Locking Keypad

IMPORTANT

Follow Installation Instructions carefully. Disconnect Power to your heatpump before removing the old thermostat and installing the new thermostat.
1 Liquid Crystal Display
   *with Thermoglow™*

2 Up/Down Buttons

3 Mode Button

4 Fan Button

5 Heat or Cool Indicator
   Red = Heat, Green = Cool
1 **Mode Indicators** - Page 7
Selects the operational mode of the equipment.
- **HEAT** - Indicates the heating mode.
- **COOL** - Indicates the air conditioning mode.
- **AUTO** - Indicates the system will automatically changeover between heat and cool modes as the temperature varies.
- **OFF** - Indicates heating and cooling are turned off.

2 **Clock with Day of the Week** - Page 6
Indicates the current time and day.

3 **Room Temperature Display**
Indicates current room temperature.

4 **Desired Set Temperature** - Page 8
Indicates desired room temperature(s).
**Setup icon** - *Pages 9-12*
Indicates the thermostat is in the setup mode.

**Fan On icon** - *Page 8*
Indicates constant, continuous fan operation. When **Fan On** is not lit - indicates the fan will only operate when necessary to heat or to cool.

**Locked icon** - *Page 18*
Indicates the keypad has been locked.

Quick Start Setting the Clock

How to Change Settings in the Setup Screens

To enter the setup screens, press the MODE button, and simultaneously press FAN button for 2 seconds. Release the buttons when you see “Setup” on the display. Use the WARMER or COOLER buttons to adjust the value of your selection. Press MODE to advance to the next setup step. Press MODE and FAN together again to leave the setup screens.

Setting the Clock and Day: Setup Steps 1 & 2

To set the time and day; enter the setup screens by pressing the MODE button and simultaneously pressing the FAN button for 2 seconds.

During Setup & Programming: Pressing the UP or DOWN buttons will modify the flashing selection.

Tip: To change hours quickly, press and hold the FAN button and press the UP or DOWN buttons.

The thermostat is preprogrammed from the factory to operate one or two stage equipment without the need for further programming. To optimize the installation of this thermostat, follow the instructions in the Advanced Setup section.
Quick Start *Selecting the Heat or Cool Mode*

Select Mode by Pressing the MODE Button

**Heating Only**

The HEAT setting indicates the temperature the room has to reach before the furnace will turn on to heat the room.

**Cooling Only**

The COOL setting indicates the temperature the room has to reach before the air conditioner will turn on to cool the room.

**Heating or Cooling**

AUTO will automatically select heat or cool based on room temperature demand.

**Off**

OFF indicates both heating and air conditioning systems are turned off.
Basic Operation

Selecting Your Desired Temperature (adjusting the setpoints)

AUTO MODE
Pressing the UP or DOWN buttons in Auto will adjust both the heat and cool set temperatures simultaneously.

HEAT OR COOL MODE
Pressing the UP or DOWN buttons in Heat OR Cool mode will adjust only the heat OR cool set temperature.

USING THE FAN BUTTON
Fan On indicates constant fan operation. You may turn the fan on even if the thermostat is in the Off mode. Pressing the FAN button toggles this feature on or off.
Advanced Setup

Press the **MODE** button. While holding **MODE**, press the **FAN** button for 10 seconds to enter setup screens.

Pressing the **FAN** button while holding in the **MODE** button for 2 seconds will bring up the Clock Set screen on the display. Continuing to hold both buttons in for an additional 8 seconds will allow access to the Advanced Setup Steps that follow the Clock Set steps. It is important to note the display will not change and will look the same whether it is in Clock Set or Clock Set plus Advanced Setup.

**NOTE:** Each step# is located at the top right corner of the display for easy reference.

Adjust the time of day clock by using the **UP** and **DOWN** buttons.

**TIP:** To change hours quickly, press and hold the FAN button and press the UP and DOWN buttons.

Select the day of the week by using the **UP** and **DOWN** buttons.
Advanced Setup

Adjust the deadband for the 1st stage (1° - 6°) by pressing the **UP** and **DOWN** buttons.

Adjust the minimum difference between cooling & heating setpoints by pressing the **UP** and **DOWN** buttons.
Advanced Setup

On
Select backlight operation:

**ON** - Light continuously

**OFF** - Light for 8 seconds after a button press

Off

C
Select thermostat operation in degrees Fahrenheit or Celsius.

F

After programming is complete, press the MODE and FAN buttons at the same time for two seconds to leave the Setup screens. If no buttons are pressed, the display will leave the setup screens after 30 seconds.

CALIBRATION - Under normal circumstances it will not be necessary to adjust the calibration of the temperature sensor. If calibration is required, please contact a trained HVAC technician to correctly perform the following procedure.

1. Place the thermostat in the OFF mode by pressing the MODE button.

2. Press and hold the MODE button. While holding the MODE button, press and hold the DOWN button for 5 seconds. All icons will appear on the display.

3. Press the MODE button once. The thermostat temperature will be displayed and may be calibrated using the UP or DOWN buttons.

4. After calibration is complete, press the MODE button once to save your changes and return to normal operation.
DEADBAND OPERATION - Controls up to three Heat and two Cool stages (please see the diagram on the next page).

The 1st Stage of heat or cool is turned on when:

(A) The temperature spread from the setpoint is equal to or greater than: the setpoint plus the 1st stage deadband (step #3, page 10). This 1st stage deadband is adjustable from 1-6 degrees and the default is two degrees.

The 2nd Stage of heat or cool is turned on when:

(A) The 1st Stage has been on for a minimum of two minutes.

AND

(B) The temperature spread from the setpoint is equal to or greater than: the setpoint plus the 1st stage deadband (step #3, page 10), plus the 2nd stage deadband. This 2nd stage deadband is fixed at two degrees and is not adjustable.

The 3rd Stage of heat is turned on when:

(A) The 2nd Stage is running for a heat demand.

AND

(B) The temperature spread from the setpoint is equal to or greater than the setpoint plus the 1st stage deadband (step #3, page 10), plus the fixed two degree 2nd stage deadband plus the 3rd stage deadband. The 3rd stage deadband is also fixed at two degrees and is not adjustable.
About Advanced Features & Operation

The above figure assumes the minimum on time for the prior stage has been met to allow the next stage to turn on, once the deadbands have been exceeded.

**EMERGENCY HEAT** - To initiate the Emergency Heat feature, press the FAN button. While holding the FAN button press the UP button. The Cool setpoint display will read ‘EH’ (emergency heat).

Exit Emergency Heat - Follow the same steps as entering Emergency Heat by pressing the FAN and UP buttons. During Emergency Heat, only OFF and HEAT modes are available by pressing the MODE button.
FACTORY DEFAULTS - If, for any reason, you desire to return all the stored settings back to the factory default settings, follow the instructions below.

1. Place the thermostat in the OFF mode by pressing the MODE button.

2. Press and hold the MODE button. While holding the MODE button, press and hold the DOWN button for 5 seconds. All icons will appear on the display.

3. After all of the icons appear, release the MODE and DOWN buttons. Then press and hold the FAN button for 5 seconds.

4. After the letters Fd appear on the display (Factory Default), release the FAN button. Press the MODE button twice to return to normal operation.
WARNING: This will reset all Advanced Programming to the default settings. Any information entered prior to this reset will be permanently lost.

HEAT/COOL DIFFERENTIAL - The Heat and Cool setpoints will not be allowed to come any closer to each other than the value set in Advanced Setup step #4, on page 10. This minimum difference is enforced during Auto-changeover operation.

   Note: To increase the spread between the heating and cooling setpoints, press the MODE button until only the heat setpoint is displayed; adjust to the desired setpoint. Press the MODE button until only the cool setpoint is displayed; adjust to the desired setpoint. Press the MODE button again to enter the Auto-changeover mode where both the heat and cool setpoints are displayed.

MEMORY BACKUP - In the event of a power loss, the thermostat will retain all stored settings without external power or batteries. However, the clock will not advance during the absence of power
KEYPAD LOCKOUT - To prevent unauthorized use of the thermostat, the front panel buttons may be disabled. To disable, or ‘lock’ the keypad, press and hold the MODE button. While holding the MODE button, press the UP and DOWN buttons together. The LOCKED icon will appear on the display, then release the buttons.

To unlock the keypad, press and hold the MODE button. While holding the MODE button, press the UP and DOWN buttons together. The LOCKED icon will disappear from the display, then release the buttons.
Warranty

One-Year Warranty - This Product is warrantied to be free from defects in material and workmanship. If it appears within one year from the date of original installation, whether or not actual use begins on that date, that the product does not meet this warranty, a new or remanufactured part, at the manufacturer's sole option to replace any defective part, will be provided without charge for the part itself provided the defective part is returned to the distributor through a qualified servicing dealer.

THIS WARRANTY DOES NOT INCLUDE LABOR OR OTHER COSTS incurred for diagnosing, repairing, removing, installing, shipping, servicing or handling of either defective parts or replacement parts. Such costs may be covered by a separate warranty provided by the installer.

THIS WARRANTY APPLIES ONLY TO PRODUCTS IN THEIR ORIGINAL INSTALLATION LOCATION AND BECOMES VOID UPON REINSTALLATION.

LIMITATIONS OF WARRANTIES – ALL IMPLIED WARRANTIES (INCLUDING IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND MERCHANTABILITY) ARE HEREBY LIMITED IN DURATION TO THE PERIOD FOR WHICH THE LIMITED WARRANTY IS GIVEN. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE MAY NOT APPLY TO YOU. THE EXPRESSED WARRANTIES MADE IN THIS WARRANTY ARE EXCLUSIVE AND MAY NOT BE ALTERED, ENLARGED, OR CHANGED BY ANY DISTRIBUTOR, DEALER, OR OTHER PERSON WHATSOEVER. ALL WORK UNDER THE TERMS OF THIS WARRANTY SHALL BE PERFORMED DURING NORMAL WORKING HOURS. ALL REPLACEMENT PARTS, WHETHER NEW OR REMANUFACTURED, ASSUME AS THEIR WARRANTY PERIOD ONLY THE REMAINING TIME PERIOD OF THIS WARRANTY.

THE MANUFACTURER WILL NOT BE RESPONSIBLE FOR:

1. Normal maintenance as outlined in the installation and servicing instructions or owner's manual, including filter cleaning and/or replacement and lubrication.

2. Damage or repairs required as a consequence of faulty installation, misapplication, abuse, improper servicing, unauthorized alteration or improper operation.

3. Failure to start due to voltage conditions, blown fuses, open circuit breakers or other damages due to the inadequacy or interruption of electrical service.

4. Damage as a result of floods, winds, fires, lightning, accidents, corrosive environments or other conditions beyond the control of the Manufacturer.

5. Parts not supplied or designated by the Manufacturer, or damages resulting from their use.

7. Electricity or fuel costs or increases in electricity or fuel costs for any reason whatsoever including additional or unusual use of supplemental electric heat.

8. ANY SPECIAL INDIRECT OR CONSEQUENTIAL PROPERTY OR COMMERCIAL DAMAGE OF ANY NATURE WHATSOEVER. Some states do not allow the exclusion of incidental or consequential damages, so the above may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.
