

CLIMATEMASTER Wi-Fi Temperature Sensor

Ultra-low
power Wi-Fi

AST014

Features

- Multiple uses:
 - Remote temperature sensor
 - Outdoor temperature sensor*
- Compatible with ClimateMaster Wi-Fi thermostats
- Easy setup using the ClimateMaster Configurator App
- Automatic temperature averaging when multiple sensors are used
- Up to 8 sensors per thermostat
- Operating temperature range:
 - 0° – 120°F w/alkaline batteries
 - 20° – 130°F w/lithium batteries
- Small size
- Uses (2) AA batteries (*included*)
- Expected battery life: Indoor sensor sample rate of 1 per minute: > year (*Assumes strong constant Wi-Fi signal strength and connection*)

* Not to be mounted in areas receiving direct rain or snow

COMPATIBILITY

Compatible
with ClimateMaster
Wi-Fi thermostats
including CM500
and CM300

CM500

CM300
