

TRANQUILITY[®] SPLIT SYSTEM BROCHURE

TRANQUILITY® SPLIT SYSTEM SERIES

Leading Technology

ClimateMaster Tranquility® Split Systems TEP/TES and matching Air Handlers and Cased Coils TAH/TAC provide comfort, sustainability, and efficiency at an affordable price for new and existing homes. Tranquility® Split Packaged Systems incorporate geothermal technology, like variable speed indoor fans, to provide high efficiency and low operating cost residential geothermal systems.

Star Among Stars

ClimateMaster works closely with the International Standards Organization (ISO), the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), to ensure that our equipment not only meets the highest performance standards, but meets the highest industry standards as well.

Comfortable Efficiency

- iGate® communicating controls use the power of two-way communication to monitor, control and diagnose your system. The result is maximum efficiency, superb comfort and improved reliability.
- Two-stage technology automatically adjusts itself to provide consistent indoor air temperatures regardless of outdoor weather extremes.
- Variable-speed blower motor helps even out hot or cold spots and eliminates the air blasts
- Insulated compressor compartment and interior cabinet reduces system noise, plus no noisy outdoor fans are used.

Affordable Savings

- Extra high efficiency up to 29.6 EER produces significant energy savings.
- Consistent geothermal (below ground) temperature reduces system energy use.
- Variable Water Flow provides optimal, maximized efficiency by eliminating temperature swings which can save over \$100 per year in an average 2000 square foot home.
- The TEP system can be used as a total electric heat pump or add on back up for your traditional heat pump.

TRANQUILITY® SPLIT SYSTEM SUSTAINABILITY

Powered by the temperature of the Earth instead of fossil fuels

Roughly 75% to 80% of heat supplied comes directly from the earth and is clean, free and renewable.

Little or no CO₂ emissions help to lower your carbon footprint.

ClimateMaster Financing

Take advantage of our affordable financing options. Contact your local ClimateMaster dealer today to explore the wide array of financing options at their disposal. With financing your geothermal system can pay for itself with the energy savings. Start enjoying the benefits of geothermal without breaking your budget.

We invite you to visit our website www.climatemaster.com or call 1-800-299-9747 to locate a dealer in your area.
