

Flush Mounted Return Air Panel

TSM and TSL Vertical Stack Products

The ClimateMaster flush mounted return air panel offers customers an esthetically pleasing return air panel option for vertical stack products. The panel's unique design allows it to be recessed into the wall and blend into dwelling spaces. This provides architects and building owners a premier return air panel option when designing dwelling spaces for maximum visual pleasure.

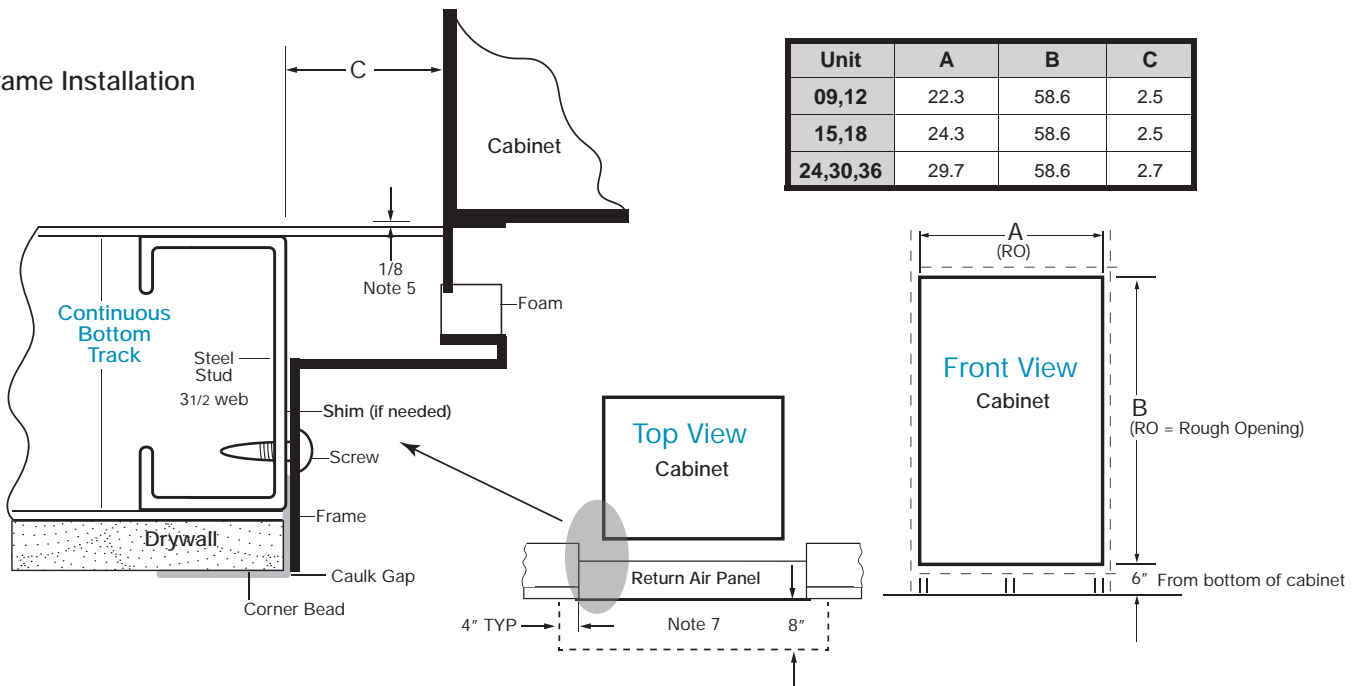

Features

- ❧ Panel frame is flush mounted and finished in drywall stage.
- ❧ Panel and frame do not protrude from wall.
- ❧ Chassis can be removed for servicing without having to remove the return air panel frame.
- ❧ Panel and frame are baked powder coated with ClimateMaster standard Polar Ice or Bright White color (custom colors available as a special).
- ❧ Compliant with ADA door or remote mounted thermostat.

Unit	AVHRL Digit 6	D	E	F	G
09,12	1	22.1	2.0	19.5	55.8
15,18	2	24.1	2.0	21.5	55.8
24	3	29.6	2.0	26.5	55.9
30,36	4	29.6	2.0	26.5	55.9

Frame Installation

Unit	A	B	C
09,12	22.3	58.6	2.5
15,18	24.3	58.6	2.5
24,30,36	29.7	58.6	2.7

Notes:

1. Dimensions are in inches.
2. Frame and panel painted.
3. Panel is removable for filter replacement or chassis removal.
4. Frame ships with cabinet—must be installed while framing.
5. Set bottom track 1/8" in front of cabinet.
6. Drywall mud is added to the corner bead to produce a smooth finished surface.
7. Unobstructed area for required air flow.
